Philosophy and Intention

- To host Congresses when few alternatives were on the table:
 - AORR and ANCMRR, in a joint effort, with the support of the Romanian MoD and (some) local sponsors, took this task
- To offer the best accommodation and working conditions for Congresses (Councils and Committees)
- To find a proper balance between the needed working conditions and costs, particularly regarding participants in MILCOMP, YROW, JMROW, and CIMEX:
 - Our solutions propose reasonable conditions at the lowest possible cost.

Strengths and weaknesses within planning

- Strengths:
 - ✓ availability to fully answer to congresses' requirements;
 - ✓ MoD support.
- Weaknesses
 - ✓ relative dispersion of accommodation and workplaces, especially for workshops and MILCOMP
 - ✓ in-town/area transportation that is time and money-costly;
 - ✓ short time to book accommodation in hotels;
 - ✓ possible difficulties/delays in registration/payments (ex. lack of celerity and accuracy of filling out and sending participation/registration forms and payment of the fee)
