# Transition with Confidence

Secure Your Next Opportunity with a Dedicated Mentor

**American Corporate Partners (ACP)** is a national nonprofit organization that bridges the gap between the military and civilian sectors, connecting experienced professionals with Veterans seeking successful civilian careers.

Our Mentors, who come from **2,250+ top companies**, including **Amazon, McKinsey**, and **USAA** are here to help you:

- Understand the civilian workforce and hiring process
- Explore career opportunities
- Translate your military experience
- Develop your networking and interviews skills

Learn more about our *FREE* program by visiting: **acp-usa.org**

# QUICK INFORMATION SHEET

## What AIRV Is

AI Ready Veteran (AIRV) is a transition enablement infrastructure for veterans and military families.

We provide ongoing support before, during, and after formal transition programs, so veterans remain transition-ready across multiple life and career pivots.

**Key idea: Programs are time-bound. Transitions are not.**

## The Problem We Solve

Veterans and military families:

- Face nonlinear, multi-year transitions after service
- Complete excellent programs (TAP, Veteran Nonprofits, VSOs) that eventually end, now what?
- Are increasingly exposed to AI tools without clear guidance or guardrails.

**Consequence:** confusion, decision fatigue, information overload, and uneven outcomes.

## AIRV's Transition Enablement Model

AIRV combines three layers that work together to take advantage of the "Power of With"; Humans with technology enablement:

### Trusted AI Tools

Purpose-bound AI workflows designed specifically for veteran transitions (career, education, entrepreneurship, planning).

### Human Guidance

Partnering with trained coaches, mentors, facilitators, and peer leaders providing context, validation, and reinforcement.

### Supportive Network

Veterans, families, nonprofits, and partners learning and transitioning together, providing ongoing real feedback to ensure the human and tool enablers stay relevant.

**Outcome:** Veterans who are well informed, confident, adaptable, and decision-ready.

## AIRV's Role In The Ecosystem

- Extends learning after cohorts and training programs end, extending learning into informed decisions and action.
- Reinforces what veterans already learned, providing the information at the right time in the right format for their success.
- Connects programs through a shared enablement layer. Enhanced ongoing support strategy.

Partners keep ownership of their programs. AIRV provides continuity and scale.

## Responsible AI With Guardrails

AIRV is built on clear, sponsor-safe guardrails focused on providing information:

### Authorized Use

- Transition coaching support
- Career and education planning
- Resource discovery and readiness building

### Restricted / Not Provided

- Medical advice
- Legal advice
- Financial advice

### Prohibited

- Autonomous decision-making
- Use of personal data by sponsors
- Replacement of licensed professionals

AIRV teaches how to use AI responsibly, not just how to access it.

## Bottom Line

AIRV helps veterans and military families never transition alone.

We provide the structure, guidance, and guardrails so partners can focus on what they do best: supporting veterans, while AIRV ensures continuity, readiness, and responsible AI use over time.

# EMPOWERING THE MILITARY COMMUNITY THROUGH MEANINGFUL CAREER OPPORTUNITIES

From military experience to civilian success, RecruitMilitary helps bridge the gap between where you've been and where you're going.
